Day 1: Vancouver, British Columbia, Canada

Canada's third-largest city, Vancouver is a cosmopolitan place with a European feel and a personality all its own. It's a community with a rich ethnic mix - including the second-largest Chinatown in North America - and stunningly beautiful parks.

Day 2: At sea

Day 3: Ketchikan, Alaska, United States

Ketchikan is known as Alaska's "First City" because it's the first major community travelers come to as they journey north. Located on an island, Ketchikan began life as an Indian fishing camp. The name Ketchikan comes from a Tlingit phrase that means "eagle with spread-out wings," a reference to a waterfall near town.

Day 4: Juneau, Alaska, United States

In 1880, it was slow going for Joe Juneau and Richard Harris as they searched for gold with the help of Native guides. After climbing mountains, forging streams and facing countless difficulties, they found nuggets "as large as beans." From their discovery came three of the largest gold mines in the world. By the end of World War II, more than \$150 million in gold had been mined. Eventually the mines closed, but the town Joe Juneau founded became the capital of Alaska and the business of gold was replaced by the business of government.

Day 5: Skagway, Alaska, United States

Skagway was the gateway to the gold fields for the thousands who flocked to Alaska and the Yukon with the hope of striking it rich. Skagway may have boasted the shortest route to the Klondike, but it wasn't the easiest. Over 100 years ago, the White Pass route through the Coast Mountains and the shorter but steeper Chilkoot Trail were used by countless stampeders. Many a would-be miner perished on the treacherous Chilkoot Trail. The gold rush was a boon and by 1898, Skagway was Alaska's largest town with a population of about 20,000. Hotels, saloons, dance halls and gambling houses prospered. But when the gold yield dwindled in 1900, so did the population as miners quickly shifted to new finds in Nome.

Day 6: Glacier Bay National Park (Scenic Cruising), Alaska, U.S.

Princess is one of a select few cruise lines permitted to cruise the pristine waters of Glacier Bay, the highlight of our 7-day Voyage of the Glaciers cruise. Just west of Juneau, this breathtaking national park and preserve boasts some of the world's most spectacular tidewater glaciers, such as Margerie Glacier, which often drops colossal chunks of ice into the sea. Not surprisingly, Glacier Bay National Park and its epic ice giants are part of a UNESCO World Heritage Site comprising Alaska's magnificent park system.

Day 7: College Fjord (Scenic Cruising), Alaska, United States

Discovered in the northwest corner of Prince William Sound during an 1899 research expedition, spectacular College Fjord and its glaciers were named after prestigious east coast schools by the college professors who first laid eyes upon their majesty. Stretching for miles, these massive rivers of ice tumble down from mountains and through valleys, dipping into the pristine waters of the fjord. There you'll have a chance to watch the awe-inspiring process of glaciers calving, or dropping enormous pillars of ice into the sea, as they crack and land with a thunderous splash – a once-in-a-lifetime experience not to be missed!

Day 8: Anchorage (Whittier), Alaska, United States

Whittier, approximately 65 miles southeast of Anchorage, lies nestled at the base of the Chugach Mountains bordering Passage Canal. Established as a World War II port for cargo and troops of the Alaska Command, Whittier remained activated until 1960. Today, Whittier's economy and its 290 residents rely largely on the fishing industry, the port and, increasingly, on tourism.

Once accessible only by boat or via a war-era railway tunnel, The Anton Anderson Memorial Tunnel was recently enhanced to accommodate highway traffic as well, making it the longest highway/rail tunnel in North America at 2.5 miles.
